Key Personnel

Jonathan Muteba

- Education:
 - Master's Degree in Chemical Engineering, Northeastern University, Fall 2021
 - Bachelor's Degree in Chemical Engineering, University of Massachusetts Lowell, Fall 2014
 - Engineering Leadership Certificate, Gordon Engineering Leadership Program: Northeastern University, August 2020
- Experience:
 - Jonathan is a chemical engineer with a decade of cGMP experience in the life sciences industry and possesses hands-on experience as a technician, CQV engineer, project manager, quality assurance, and leader. Jonathan has worked across the spectrum—from small startup operations to large established commercial companies. Jonathan has a strong understanding of manufacturing operations, quality systems engineering, and regulatory compliance with GMP, ISO, and FDA standards makes him a valuable asset to meet your company's needs.

Differentiators

- Custom-Tailored Solutions: We specialize in delivering customized consulting services that evolve with our clients' needs. Our extensive background in Auditing, Commissioning, Qualification, and Validation (CQV), Computer Systems Validation (CSV), Project Management (PM), and Quality Assurance (QA) empowers us to develop tailored solutions designed to address specific operational challenges.
- Diverse Portfolio: Demonstrated extensive experience with industry Leaders, including Amgen Inc., Moderna Therapeutics, Regeneron Pharmaceuticals, Shire Pharmaceuticals, Takeda Pharmaceuticals, Ultragenyx Pharmaceutical Inc, Vericel Corporation, and Vertex Pharmaceuticals. This diverse portfolio underscores a robust understanding of both innovative therapies and traditional pharmaceutical practices, equipping Brilla Life Sciences with the insights to deliver high-quality consulting services tailored to industry needs.
- Regulatory Expertise: We have in-depth knowledge of FDA, ISO, and GMP standards. Our extensive regulatory background ensures that clients meet compliance requirements efficiently, mitigating risks and maintaining high-quality standards across all operations.
- Strong Educational and Leadership Experience: Equipped with a Master's and Bachelor's in Chemical Engineering, alongside an Engineering Leadership Certificate and eight years of engineering leadership experience, Brilla Life Sciences blends technical expertise with strategic vision, enabling us to address complex challenges effectively and inspire high-performing teams.
- Collaboration & Teamwork: Brilla Life Sciences excels in fostering collaboration across all disciplines within the manufacturing, production, and operations sectors. With extensive experience in quality control, validation, engineering, project management, and quality assurance, our team effectively integrates with cross-functional teams. This versatility enables contribution at all project levels, ensuring that diverse expertise is leveraged for innovative solutions and successful project outcomes tailored to client needs.
- Supplier Diversity Collaboration: Working with Brilla Life Sciences, you benefit from exceptional quality service and can leverage our MBE & SDO certifications, and SAM registration to achieve your diversity procurement goals, all while enjoying flexible, cost-effective solutions tailored to your needs.
